

Scan Passion Horizon - <http://passionhorizon.wifeo.com>

The five model Horizon range offers a car to suit all tastes and all pockets, from the low price Horizon LE to the luxury GLS. There is now in 1983 a Horizon Diesel model for the motorist where economy and reliability are paramount.

The 5-door design gives saloon car styling with estate car versatility. With the rear seat folded down and the rear parcel shelf removed the Horizon gives an amazing 43.0 cu. ft. of loadspace.

All petrol engined models are fitted with electronic ignition to ensure fail-safe starting every time — even in the worst weather conditions. Safety is also built into the Horizon range, with load adjustable headlamps, servo-assisted brakes, heated rear window, child proof rear door locks and twin rear fog lamps are standard on all models.

The Horizon range has been improved for 1983 with the following major changes:

- All-inclusive price*
- New Diesel model
- New style front and rear seats
- Raised parcel shelf
- New style wheels
- Black exterior decor
- Tailgate turnlock button

Plus on LS Model

- Front seat headrests

Plus on GL Model
