

Welcome to the Talbot Horizon. The car Europe's toughest motoring critics named Car of the Year 1978-1979. Now,

with over 1½ million Horizons on the roads across Europe, a lot more people have discovered just what a winner this car is!

Exactly tailored for today's needs, Horizon is comfortable, roomy, compact, thrifty – and very versatile.

The four big doors give easy access for five people. Front reclining seats. Cloth upholstery. Plenty of room for driver and passengers to relax.

The rear door lifts automatically. Under its parcel shelf more than 6.7 cu. ft. of shopping and luggage is safe from prying eyes. For the big loads, lower the rear seats and suddenly you have 42 cu. ft. of estate versatility.
