

HORIZON Premium Interior is shown here in cloth upholstery on front and rear bench seats. Other distinctive touches include woodtone applique on the instrument panel, deluxe seat belts with tension reliever and automatic release, luxury steering wheel, colour-keyed console and more!

Your HORIZON handles four adults in comfort and provides plenty of cargo capacity for your "transportables". With the seat up your valuables are concealed by the standard security panel that lifts up for easy loading.

ENGINEERING makes the difference that means extra value

HORIZON'S new 2.2-litre optional engine is typical of the careful attention paid to every engineering detail of the car. This Chrysler-designed, transverse-mounted, durable 4-cylinder engine runs on regular gasoline. Rubber engine mounts, overhead cam, hydraulic tappets and sound insulation help to make this an unusually quiet and reliable engine. Prove it to yourself, test drive Horizon today!
